

# artichoke weddings

Full service wedding & engagement  
photography & videography.

# hey, congratulations!

They say your wedding day is one of the best days of your life, and we couldn't agree more. We realize it takes a lot of hard work and research to plan a wedding, which is why we are so humbled you have gotten in touch with us!

We are Matt and Derek of "Artichoke Weddings," a full service media company for weddings and engagements. Between the two of us we have over 20 years of wedding photography and videography experience all over the U.S.

Our goal is to make the process of selecting and dealing with a photographer as quick and easy as possible. To get things kicked off we hope you'll take some time to page through this deck to find out a little bit more about our process, style, and deliverables.

-Matt & Derek

# how we shoot

Our style is very photo-journalistic. We like to capture things as they are, as they happen. We rely heavily on natural light, but also come equipt with lighting equipment for when the situation calls for it.

We shoot all the big moments, all the little details and everything in-between.

# our process

Depending on the package you choose, we will either bring two or four team members to the wedding. If we shoot just photo or just video we'll bring two people, If we're doing both photo and video we will bring four people. The day starts when the bridal party is just finishing getting ready. Half our

team will shoot with the bride and the other half will shoot with the groom. From there we meet up for the ceremony and shoot through the reception. During the day we strive to be as minimally invasive as possible. We can follow a shot list if you would like to provide one, and we're happy to take

spontaneous direction if you see things you want to capture throughout the day. Each wedding is different, and we pride ourselves on our ability to be flexible and customize our process to meet the needs of each of our clients.

# packages
